

MODEL: AR901 /AR601

**ADVANCED REMOTE CONTROLLED ALARM,
IMMOBILISER WITH ULTRASONIC DETECTOR
& ANTI-CARJACK SYSTEM**

Features of the Eurolock AR901/AR601

- Passive arming immobiliser
- 3 circuit interruption(AR901)
- 2 circuit interruption(AR601)
- Perimeter alarm protection (doors, boot and bonnet)
- Ultrasonic detector
- Isolation of ultrasonic detector
- LED state indication
- "Intelligent" LED indication (alarm diagnostics)
- Visual ON/OFF indication via hazard lights
- Audible ON/OFF indication via speaker/ horn
- "Advanced" remote control / Anti-scan
- Up to 6 remote controls
- Unique ID code
- Panic facility
- Central locking output facility
- Selective unlocking output facility
- Lock on start, if central locking fitted
- Unlock on ignition off, if central locking fitted (programmable)
- Anti-carjack Systems (programmable)
- Ignition tamper protection (hot wire protection)
- Battery "Low" indicator on remote control
- Remote battery "Low" indicator via system
- Power down protection
- Dual ultrasonic detector (optional)
- Secure 5 PIN code "One" event override
- Auto arming of alarm & ultrasonic (programmable)
- Secure housing
- Armoured Housing (optional)
- Customisation of features

MODEL:AR 401

**ADVANCED REMOTE
CONTROLLED ALARM WITH
ULTRASONIC DETECTOR**

Features of the Eurolock AR 401

- Perimeter alarm protection (doors, boot and bonnet)
- Ultrasonic detector
- Isolation of ultrasonic detector
- LED state indication
- "Intelligent" LED indication (alarm diagnostics)
- Visual ON/OFF indication via hazard lights
- Audible ON/OFF indication via speaker/ horn
- "Advanced" remote control / anti-scan
- Up to 6 remote controls.
- Unique ID code
- Panic facility
- Central locking output facility
- Selective unlocking output facility
- Lock on start, if central locking fitted
- Unlock on ignition off, if central locking fitted (programmable)
- Ignition tamper protection (hot wire protection)
- Battery "Low" indicator on remote control
- Remote battery "Low" indicator via system
- Power down protection
- Dual ultrasonic detector (optional)
- Secure 5 PIN code, "One" event override
- Auto arming of alarm & ultrasonic (programmable)
- Secure housing
- Armoured Housing (optional)
- Customisation of features

MODEL:AR 402/602

**ADVANCED REMOTE
CONTROLLED ALARM WITH
ULTRASONIC DETECTOR**

Works with original car remote

- Perimeter alarm protection (doors, boot and bonnet)
- Ultrasonic detector
- Isolation of ultrasonic detector
- LED state indication
- "Intelligent" LED indication (alarm diagnostics)
- Visual ON/OFF indication via hazard lights
- Audible ON/OFF indication via speaker/ horn
- "Advanced" remote control / anti-scan
- Up to 6 remote controls.
- Unique ID code
- Panic facility
- Central locking output facility
- Selective unlocking output facility
- Lock on start, if central locking fitted
- Unlock on ignition off, if central locking fitted (programmable)
- Ignition tamper protection (hot wire protection)
- Battery "Low" indicator on remote control
- Remote battery "Low" indicator via system
- Power down protection
- Dual ultrasonic detector (optional)
- Secure 5 PIN code, "One" event override
- Auto arming of alarm & ultrasonic (programmable)
- Secure housing
- Armoured Housing (optional)
- Customisation of features
